

HICKMAN LEVEE FAILS TO HOLD

Serious Break Occurs in Big Government Dyke.

LOSS OF LIFE MAY RESULT

One Hundred and Fifty Square Miles of Additional Territory Will Soon Be Under Water as Result of Break in Levee Protecting the Reelfoot District of Kentucky and Tennessee.

St. Louis, April 6.—The flood area in the Mississippi valley has widened and lengthened. The big government levee west of Hickman, Ky., protecting the Reelfoot lake district of Kentucky and Tennessee, broke and it is believed 150 square miles will be inundated. This section is comparatively thickly populated and loss of life is expected. Much suffering and property damage seem certain.

In its onward rush the Mississippi reached a flood stage almost to Natchez, Miss., and hundreds of men were at work on the levees in the newly menaced territory, stopping small breaks and strengthening the spots weakened by the terrific strain. As the river still was rising at Cairo and the Ohio slowly was mounting higher as far up as Louisville, with smaller streams all down the line pouring unprecedented volumes of water into the Mississippi, the lower river district faced a crisis.

Six hundred and thirty-eight miles of the Mississippi is seriously affected, that being the distance between Columbus, Ky., and Vicksburg, Miss. The greatest strain, where there is liable to be a break any time, extends from Columbus, Ky., to Helena, Ark., a distance of 318 miles.

The flood death list probably was brought to eighteen. This is not positive, however, as reports of loss of life have proved inaccurate in some instances and doubtless persons have drowned in remote settlements and the facts not made known. The property loss was conservatively estimated at \$1,500,000.

Relief work is going on as rapidly as interrupted transportation facilities will allow. At Hickman, Ky., 3,000 are sheltered in tents provided by the federal and state governments. Food is being supplied in all localities where the local supply has been exhausted. There has been little suffering from hunger.

FARMERS IN GRAVE DANGER

Levee Breaks With Roar That Is Heard for Miles.

Hickman, Ky., April 6.—With a roar that could be heard for miles the Mississippi river flood burst through the government levee, five miles west of Hickman, and is racing over the Reelfoot lake district. One hundred and fifty square miles of farming land will soon be an inland sea. Grave apprehension is felt for the safety of farmers in remote sections of the sparsely settled country. The water, when it came through, tore a gap sixty feet wide in the levee and the swirling current is fast eating away the earthwork and widening the breach.

The Reelfoot levee, as it is generally known, has been regarded as a danger point for a week and strenuous efforts had been made to hold the flood.

JAP WAR SCARE DWINDLES

Land Deal With Mexico Has Been Declared Off.

Washington, April 6.—President Taft's response to the Lodge resolution, calling for information regarding Japanese negotiations for the purchase of land on Magdalena bay in Lower California, will not reach the senate until all danger of friction will have passed.

The Lodge resolution, according to a member of the senate's foreign relations committee, grew out of the knowledge that a company composed largely of Japanese was on the eve of purchasing 4,000,000 acres of land. Cwing to the fact that the land is practically worthless it was considered at least the part of caution to prevent a transfer which might involve complications. Already information has been received indicating that the negotiations are off and it is believed there is no further ground for apprehension.

TEXTILE FIREMEN TO STRIKE

Walkout in Nearly 100 Mills Set for Monday.

Fall River, Mass., April 6.—Three hundred firemen employed in nearly 100 textile mills in this city will go on strike Monday.

This action was decided upon at special meetings of the stationary firemen's unions. The men ask a flat wage rate of 22 cents an hour in place of the present sliding scale of from 12 to 20 cents.

Mexican Rebels Take Parral.

Jimenez, Mex., April 6.—Parral fell into the hands of the rebels. The number of the enemy which looked so large to General Campa in the hour of his defeat proved to be a force of only 700. They escaped, leaving behind them a rapid firer and a mortar, previously captured from the Liberals.

GENERAL EDWARDS.

Would Let Philippines Go In Event of War in the Pacific.

WOULD LET PHILIPPINES GO

Brigadier General Edwards Thinks Hawaii and Alaska Better.

Washington, April 6.—In case there were a war centering in the Pacific ocean the United States ought to let the Philippines go without struggle and center all its strength on defending Hawaii, San Francisco and Alaska, said Brigadier General Edwards, chief of the insular bureau, before the senate finance committee. "If any of the great powers should decide to seize the Philippines I would allow them to do so," Edwards declared. "But the ownership of the islands would be one of the things to be considered after the close of the war."

LA FOLLETTE OPENS NEBRASKA CAMPAIGN

Makes Four Set Speeches and Score of Short Talks.

Lincoln, Neb., April 6.—Senator Robert M. La Follette, on the first of a five-day campaign in Nebraska, traversed the southeast river counties of the state almost to the Kansas line and then doubled back, reaching Lincoln for a meeting. He made four set speeches, besides nearly a score of short talks at the different places.

"The rule of the few must end and the whole people must have a voice," was one of the frequently reiterated statements of Senator La Follette. "The time has come for the masses to assert themselves and no longer accept the dictum of leaders who serve their own selfish purpose or the interests."

He said he had come to Nebraska because he believed the voters of the state were progressive and no longer willing to be dominated by the interest. He made only indirect references to President Taft and Colonel Roosevelt, but said he was in the presidential fight to stay, because he believed it was necessary for some one to battle for progressive principles.

In his speech here before a crowd which filled the Auditorium Senator La Follette attacked President Taft and Colonel Roosevelt. Roosevelt, he said, had failed in his duty as president by permitting trusts to spring up and flourish. President Taft failed to insist on the carrying out of party pledges on the tariff.

WITHDRAWAL HELPS CLARK

Managers Say He Is Assured Massachusetts Delegation.

Washington, April 6.—The withdrawal of Governor Foss as a Democratic presidential candidate in the approaching primary in Massachusetts, the Clark managers said, assured the capture of the Massachusetts delegation by the speaker.

Former Senator Dubois, in charge of Speaker Clark's national campaign, after a conference with Congressman Curley, who has been conducting the Clark affairs in Boston, expressed the belief a Clark delegation would be sent to the Baltimore convention.

TIED HIS MEN TO STAKES

Philippine Scout Officer Is Dismissed From Service.

Washington, April 6.—First Lieutenant Orta L. Houser, Philippine scouts, has been dismissed from the service under the recommendation of court-martial, which was approved by President Taft.

Charges filed against the officer alleged drunkenness, tying members of his command to stakes without food or water, tying one man to a tree on the edge of a stream so that the soldier was compelled to stand with one foot in the water and a number of others, including that he struck, kicked and struck with the handle of a whip some of his fellow scouts.

Flames Threaten Town.

Norwalk, Wis., April 6.—Seven buildings are in ashes as the result of a fire which threatened to wipe out this village. The authorities asked aid from La Crosse, but in the meantime local fire fighters controlled the situation.

ADJOURNMENT OF CONGRESS

Unlikely That It Will Come Early In June.

LEGISLATION IN CONFERENCE.

Wide Difference of Opinion Between the Measures as Passed by the Two Houses—Speaker Clark's Fairness. Senator Stone No Longer For an American Invasion of Mexico.

By ARTHUR W. DUNN.

Washington, April 6.—[Special.]—There is much legislation in conference, a stage which many legislators think is very advanced, but at this session does not mean very much because of the wide difference of opinion between the measures as passed by the two houses. It means that attempts will be made by six men, the usual number of conferees, to legislate. Conference legislation is as far removed from the tendency of the times as could be imagined. Conference legislation is not even representative legislation, for conferees do not always represent the houses of congress which create them.

At this time, on account of the radical differences existing, the conferees will take much time, and it is possible their reports will cause a great deal of discussion. Just why any one can believe that there is a possibility of adjournment early in June with all these differences in conference I cannot imagine.

Pension Differences.

It is a question whether there will be anything like satisfactory pension legislation at this session of congress. The fight is now on between the Sherman bill of the house and the McCumber bill of the senate. From the manner in which the McCumber bill was put through it looks as if the Sherman bill would have to give way.

Mann to the Rescue.

The inhuman treatment of poultry in the course of shipment has appealed to Congressman Mann, who has introduced a bill to correct the evil. He makes interstate commerce carriers responsible for the proper handling of fowls in transit. His bill will probably pass without a dissenting voice.

Stone Is Pacific.

Last year when the Mexicans were fighting along the border Senator Stone of Missouri was bellicose. He wanted the army to go forthwith across the border and punish federalists or insurgents who were shooting close enough to the line occasionally to wing an American on this side. Senator Stone is pacific now and is making no effort to secure an invasion of Mexico. "I don't care what they do so long as they leave American citizens alone," he said.

Knew Stephenson.

Soon after Senator Isaac Stephenson was vindicated by the senate an old soldier called, stating his purpose to be to congratulate the senator. "Do you know him?" he was asked. "Know him? Of course I know him!" was the response. "I knew him before he became vice president."

He thought the Wisconsin senator was the venerable Adlai E. Stevenson of Illinois.

Taft Button on Dwyer.

There is no more ardent Democrat in Washington than L. W. Dwyer, who has been a Bryan man, but is now supporting Champ Clark. Not long ago he was at luncheon, and the colored waiter who attended his party wore a Taft button.

"See here," said Dwyer, "if you can give me one good reason why you are wearing that Taft button I'll wear one myself."

"Well, you see, boss," apologetically explained the waiter, "I bust the regular button off my shirt, and I couldn't find a pin, so I dove pin it up with this bar button I found on the floor. I'm obliged to cover mah nakedness, but I ain't for Taft."

Dwyer's friends insist that he owes it to that colored man to wear a Taft button.

The Speaker's Fairness.

No one can claim that Champ Clark takes advantage of a technicality in order to secure advantage for his party or his lieutenants on the floor. That cannot be said of former speakers, who often made it a study to utilize every opportunity to get the best of their opponents. Clark often goes back, leans a little to lax administration of the rules, in order to give every man every right he claims. Only the other day, when Congressman Norris did not make an objection he claimed he wanted to make, Clark remarked that Norris had been "sleeping on his rights," but that he would give him the benefit of the doubt and allow him to make his objection. Clark is a partisan, but he does not intend to exercise his partisanship from the speaker's chair.

Sanitarium For Owls.

Congressman Anderson of Ohio has introduced a bill setting apart a portion of the public domain in a salubrious section of the country for a sanitarium for the Order of Owls. It may be needless to add that Anderson is a member of the Order of Owls. He is also a member of the Odd Fellows, Elks, Mystic Shrine, Knights of Pythias, Macabees, Eagles, Moose, Modern Woodmen, Home Guards and Musicians' union.

Proving It.

An editor said of a certain local politician: "We will not call him an ass. We will print his speech."

JOSEPH F. SMITH.

Presides at the Eighty-second Conference of Mormon Church.

NO MORMON COMMERCIALISM

Joseph F. Smith, in Address, Denies Charges Against Church.

Salt Lake City, April 6.—In spite of a heavy rain storm the Tabernacle was filled at the opening session of the eighty-second conference of the Mormon church. Joseph F. Smith, president of the church, in his opening address, denied the charges of commercialism that have been made against the Mormon church.

"There is not even a semblance of truth in this charge," he said. "It is true we believe and practice the principle of tithing. The people contribute voluntarily of their means to support the church. The officers do not force this law. I pay my tithing, just as I observe any other law of the church."

GUGGENHEIMS CALL ON PRESIDENT TAFT

Are Anxious to Have Alaskan Coal Fields Developed.

Washington, April 6.—President Taft gave a hearing on Alaska and the prospects for its development to Senator Guggenheim of Colorado, his brother, Daniel Guggenheim, and several experts of the Guggenheim company. Secretary Fisher was present and Vice President Sherman at the invitation of the president was an interested listener.

The Guggenheims were anxious to know, it was said, what might be expected in the way of legislation that would allow the development of Alaska's natural resources and particularly the coal.

They control the Copper River railroad planned to tap the Bering coal fields. For this road there is now practically no traffic and the opening of the coal fields would insure big tonnage. They are reported interested also in Secretary Fisher's plan to build a government railroad in Alaska. This road, if built, would not compete with the Copper River road.

Neither the president nor Secretary Fisher would predict action by congress in pending measures that would insure the opening of the coal fields, although the president has made many addresses and frequently suggested to congress the necessity of providing a leasing plan that will allow the fields to be opened.

AGAINST TWO-COMPANY IDEA

Government Doesn't Favor Dissolution Plan of Harvester Trust.

Washington, April 6.—Attorney General Wickham held conferences regarding the relation to the Sherman anti-trust law of three of the most important industries in the country—harvester, steel and beef.

The negotiations between the government and the International Harvester company for a friendly dissolution have reached, it is said, a critical stage where it is impossible to foretell the outcome. Counsel for the company submitted to the government in writing certain propositions they had previously made orally.

The government, it is intimated, would prefer a disintegration into a greater number of companies than two, although there has yet been no rejection of the two-company idea.

Shoots Two and Himself.

Chicago, April 6.—Morris Fischman, who is believed to have become crazed because of worry over financial difficulties, shot and probably fatally wounded his brother-in-law, Alexander Striker, shot and wounded Mrs. Frances Ginter, forty-five years old, a patron, and then killed himself in his tailoring establishment.

Woman Admits Brutal Crime.

Oroville, Cal., April 6.—Mrs. Emma Run, bull pleaded guilty to manslaughter in connection with the death of her stepdaughter, Helen Rumbull, fourteen years old, who was found July 3 last with her neck broken in two places. Mrs. Rumbull was sentenced to two years in the penitentiary. Her brother, Arthur Lewis, is now serving ten years for murder.

DELEGATES WILL HAVE FREE HAND

MINERS FAVOR COMPROMISE

Union Would Withdraw "Check Off" Demand to Get Recognition.

Philadelphia, April 6.—It was stated at Scranton that if the miners' union was recognized so as to provide for a "closed shop" the miners practically are willing to recede from the "check off" demands.

The "check off" provides that the coal companies deduct the union dues from the wages of the men and turn them over to authorized officers of the organization.

One-half of the locals in the Scranton-Wilkesbarre territory. It is asserted, have adopted resolutions calling for recognition. All the others will adopt similar resolutions before the Philadelphia conference next week, according to word passed out from the union district headquarters at Scranton.

SAYS BOTH REACHED POLE

Peary Thinks Amundsen Preceded Scott by a Month.

New York, April 6.—Rear Admiral Robert E. Peary, retired, who discovered the North pole, is of the opinion that both Amundsen, the Norwegian, and Captain Scott, the Englishman, attained the South pole.

He expressed this view in an address at a celebration marking the third anniversary of his discovery, at which he was honored by a unique medal made up in part of a meteorite which he brought from the Arctic regions in 1879. Admiral Peary declared that from his study of the competition between Amundsen and Scott he believed the Englishman had also been successful in reaching the South pole about the middle of January, or about a month later than Amundsen reached it.

WILSON HAS 20 DELEGATES

Latest Figures of Badger Primary Give Clark Four.

Milwaukee, April 6.—Wilson has at least twenty of the Wisconsin delegates to the national convention, according to the latest figures, and Clark at least four. Two delegates from the Ninth district are in doubt and will be until the official canvass, for returns in one county were sealed and forwarded to the state capital, with none of the election officials willing to disclose the result.

One Cent Fine for Infanticide.

North Yakima, Wash., April 6.—Mrs. Eva Berlalon, on trial for the murder of her infant child, whose body was found in an irrigating ditch, was found guilty of manslaughter. It was asserted that the child died of neglect. The jury signed a petition to Judge Preble asking him to impose the lowest possible penalty, which is a fine of 1 cent.

Meats and Flour on Free List.

Washington, April 6.—Representative Bathrick of Ohio, Democrat, introduced a bill to place meats, flour and cereals on the free list. The bill was referred to the committee on ways and means. Mr. Bathrick hopes its passage will help reduce the cost of living.

Mercy Case Goes to Jury.

Chicago, April 6.—A verdict in the suit of Miss Esther Mercer, a former student, against Miss Marion Talbot, dean of women at the University of Chicago, for \$100,000 for alleged slander, may be returned soon. The case has gone to the jury.

Fatal Fire in Omaha.

Omaha, April 6.—One workman, John Lausterer, was burned to death and \$200,000 monetary loss was sustained by a fire which destroyed the implement manufacturing plant of T. E. Stroud & Co. here.

Friendly Aid.

New York State Convention May Fail to Instruct.

TAFT MEN TO BE IN CONTROL

State Chairman Barnes and Other Republican Leaders Announce That Delegates at Large Will Receive No Instructions at State Convention Next Week—News Causes Jubilation Among President's Opponents.

Washington, April 6.—Definite announcement by State Chairman Barnes and other New York Republican leaders that the state convention there next week will not instruct its delegates at large for President Taft has proved a cause of much concern to the president's campaign managers.

The element in New York which is opposed to Roosevelt and is supposed to be for Taft will be in absolute control of the state convention and could force the adoption of Taft instructions if it so desired. That it will not do so is significant.

Taft's opponents are jubilant and declare that it means that the New York organization is not really for Taft and does not want him renominated because of a settled conviction that he cannot be re-elected.

It goes without saying that if Chairman Barnes and his associates were earnestly supporting the president and wished to do all in their power to nominate him next June at Chicago they would have the strongest possible Taft instructions adopted at their state convention.

Would Aid Taft's Cause.

Nothing would do more for the Taft cause at this time, for it would inform the country at large that the dominant element of the party in the great Empire state, which has forty-five electoral votes, believed in Taft and wants him.

On the other hand failure to instruct in New York implies a lack of confidence in the Taft cause. The great New York delegation of ninety men will go to Chicago free to support any candidate and take any action they see fit at the time the national convention assembles, for none of the district delegates are instructed.

On top of this action in New York next week the Connecticut and Maine state conventions will be held and according to the returns now available both will adopt Roosevelt instructions. Then the Illinois primaries will be held and the friends of the administration already concede that Roosevelt will win a victory there.

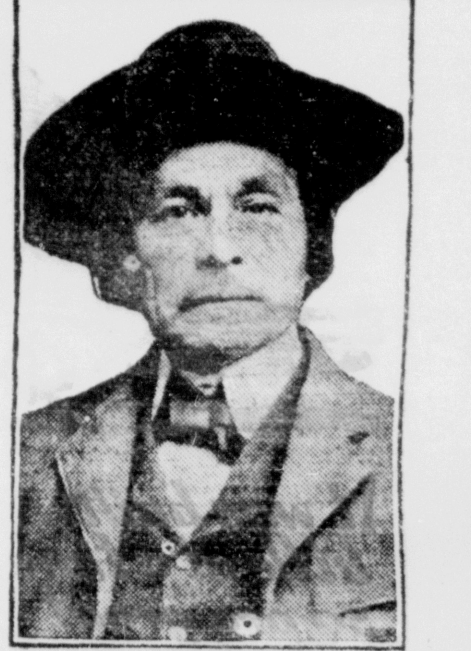

Illinois has fifty-eight delegates, and when the summaries are published at the end of next week it will be shown that of the delegates elected at that time the percentage that may be placed in the Taft column will have made a big slump. To date the Taft people have had all the better of it in the tabulations.

BOY PLUNGES OVER FALLS

Drops 175 Feet to Death in Michigan Whirlpool.

Calumet, Mich., April 6.—The first drowning of the season here occurred at Houghton Douglas Falls, 175 feet in height, when Eugene Sullivan ventured too close to the cataract, slipped and fell over the brink, plunging the full distance into the whirlpool at the foot of the descent. The body has not been recovered. The falls are unusually high this year and are visited daily by crowds. Many saw the tragedy. The victim was fifteen years old and the son of John Sullivan of Calumet.

Fireless Florence.

Italy in winter is a bad place for folk who love a fire. Florence in particular is subject to fogs that would not discredit London in November, and when one of the piercing gales, known as tramontane, is blowing, the cold is equal to one of our bitterest days in March. Yet for generations the Florentines have built their houses without fireplaces. The sole concession to human weakness for warmth and comfort consists in the "scaldino," a little pot of glowing wood ashes to be placed under the owner's chair. But even the use of this by a man is considered bad taste and effeminate. — London Standard.

The Danger After Grip

lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver, and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50 cents. A Long Prairie lady in charge of a rummage sale took off her \$28 Easter hat and laid it on the counter while she was fixing her hair and on turning around to put it in place on her head again was surprised to find it had been sold to a customer from the country for 35 cents and was already on its way to the rural district in possession of the new owner.

Almost a Miracle

One of the most startling changes ever seen in any man, according to W. B. Holselaw, Clarendon, Tex., was affected years ago in his brother, "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for coughs and colds with excellent results." It's quick, safe, reliable and guaranteed. ROOSEVELT WANTED TO FIGHT MEXICO.

Colonel Is Said to Have Offered His Services to Taft.

The announcement of Colonel Roosevelt's willingness to accept the presidential nomination and his consequent open break with President Taft was declared to have removed a picturesque possibility in connection with the threatened trouble in Mexico.

Persons who pretend to be conversant with the facts stated that when the Madero revolution was at its height and the possibility of American intervention was being discussed Colonel Roosevelt wrote a letter to President Taft volunteering to head a regiment of cavalry, which was to be in the forefront of the invading force.

Colonel Roosevelt, it is said, stipulated that his subordinate officers were to be of his own choosing and went so far as to name some of the men he would select. These included Colonel Cecil A. Lyon, Republican national committeeman of Texas; Jack Abernathy, the wolf strangling ex-marshall of Oklahoma; Sloan Simpson of Texas, a "rough rider;" Secret Service Agent James Sloan, Jr., now with President Taft, and several members of the old rough rider regiment of Cuban war fame.

Colonel Roosevelt at that time, it is said, stated it as his highest ambition to be again in the saddle in time of war.

The colonel's letter to President Taft was addressed "Dear Will," according to those who say they saw it, and President Taft's reply was addressed "Dear Theodore." It stated, according to reports, that the colonel's proposal was "very interesting, indeed," but

that the possibility of American intervention was too remote a contingency to be considered at the time in any way.

Origin of the Banjo.

In the early part of the nineteenth century in the town of Banjoemas, on the island of Java, a negro native determined to construct a musical instrument for his own use. Taking a cheese box and heading it with a goatskin, he ran a handle through it, and, adapting violin strings tuned to the first, third, fifth and eighth notes of an octave, he christened it a banjo, from the first two syllables of his native town. Gradual improvements on this rough and ready instrument were made, and about the middle of the century it crossed the Atlantic and, though unpopular in London at first, soon became well liked. — London Chronicle.

Puts End to Bad Habit

Things never look bright to one with "the blues." Ten to one the trouble is a sluggish liver, filling the system with bilious poison, that Dr. King's New Life Pills would expel. Try them. Let the joy of better feelings end "the blues." Best for stomach, liver and kidneys. 25c at all druggists.

THE TRUE TEST

Tried in Brainerd, it Has Stood the Test

The hardest test is the test of time, and Doan's Kidney Pills have stood it well in Brainerd. Kidney sufferers an hardly ask for stronger proof than the following:

Mrs. Charles Erickson, 1103 E. Oak St., Brainerd, Minn., says: "I suffered from disordered kidneys for two or three years. There was a dull, heavy pain through the small of my back that kept me in constant state of discomfort. I was also subject to headaches and dizzy spells. Having been advised to try Doan's Kidney Pills, I procured a box and used them regularly. I now feel much better in every way. I am certain that all kidney sufferers will find relief through the use of Doan's Kidney Pills." (Statement given August 3, 1908.)

RE-ENDORSEMENT

On October 12, 1910, when Mr. Erickson was interviewed, he said: "I cheerfully confirm my former testimonial regarding Doan's Kidney Pills. This remedy can always be relied upon."

ard's 11 year old sister was run-
g after him to catch him. The
o was going near the west curb-
when she saw the child. There

e since the street was paved.

D. Witte, residing on Fourth av-
e, testified next. He was driv-
his team north on Third avenue.
auto passed him at Evenson's as
as machine went south. There
e four or five men in it. He es-
ated the speed at about 20 or 25

miles an hour. When they went by,
it seemed as though a flash of wind
had struck him in the face. They
had passed him twice with in a few
minutes, going north and south on
Third avenue. He figured it was
about 250 feet from where they last
met him that the accident occurred.

Mr. Witte judged the speed com-
trains he had seen. He had also
ridden a bicycle and driven a team
and knew what speed was and was
sure that the rate they were going
was away over the speed limit.

At the corner of Third avenue and
Kindred street the auto had passed
as he first got on Third avenue. The
auto went north, covered the entire
length of the street, turned and sped
back, passing him before he had gone
a block on Third avenue to Even-
son's.

Valentine Witte, aged 15, the son
of C. D. Witte, was examined. The
boy was sitting in his father's wagon
and was looking backwards. He
knew the Zabel child and saw him
run across the street. He substanti-
ated his father's testimony about
auto passing them first at Kindred
street, running the length of Third
avenue, turning and then running
south again. As the machine passed
Evenson's the Zabel boy had reached
the middle of Third avenue on his
way across the street near Crust's.

There was a clear road ahead, no
teams and no people on it. The Za-
bel boy was in front of the auto
when it struck him and before the
machine had started to turn out of
the way.

Before the auto reached the child
there were two corners, east or west
on Forsyth street, that the auto
could have swung in and avoided the
baby.

Mrs. Edward Crust, 219 Third av-
enue, said she was in her dining
room looking out of the window and
saw the Zabel boy right in front of
the car. She said the car was
running slowly as it crossed Forsyth
street. It skidded near the crossing.
The boy fell down in front of the au-
to. They could have turned east or
west on Forsyth street.

D. W. Smiley, 606 Northeast Maple
street, was walking north on the
east side of Third avenue to the cut-
off corner near the Wood's home. He
saw a little girl run down Forsyth
street after the Zabel boy. The auto
was then at Whitney's and was mov-
ing south at what he estimated was
a speed of 8, 10 or 12 miles an hour.
He could never tell how fast an auto
was going. The machine slowed
down after passing Evenson's and
seemed to try to avoid the little girl.
The boy was then on the west side of
the street about 10 feet from the lit-
tle girl. The auto stopped near
Crust's premises after passing clear
over the body. According to Mr.
Smiley's testimony the child was
struck north of Crust's corner. The
session adjourned at noon to two
o'clock in the afternoon.

DEATH CAUSED BY HIS CARELESSNESS

Coroner's Jury Brings in Verdict that
Joseph G. Brandt's Carelessness
Caused

LEONARD ZABEL'S DEATH

Last Witness Examined by County
Attorney Fleming Was Chauncey
Brockway

After D. W. Smiley had testified
at the Zabel inquest Chauncey Brock-
way took the stand. The inquest
was then adjourned to two o'clock
this afternoon.

The jury deliberated but a short
time in the afternoon and returned
the following verdict: "That Leon-
ard Howard Zabel came to his death
through the carelessness of Joseph
Brandt, driver of one automobile on
Third avenue Northeast at about 6
P. M. April 4, 1912, near the corner
of Forsyth street, on the west side of
the street."

The Last Hour

There may be something which you may have forgotten.
The last hour always reveals an article or two which are ne-
cessary to complete the costume. We have planned to care
for all who come tonight.

Your Easter Hat

Our milliners by much hard work and careful planning have
gotten their work in such shape that they can care for those
who have delayed the purchase of their hat until the last hour.
If you have not purchased your Easter hat come in tonight
and we will care for you.

Your Easter Gloves

We will have plenty of help at the glove counter tonight so
that you can be shown and fitted promptly. And by the way,
we have a very large line of shades and qualities in kid gloves.

Your Easter Neckwear

All the new ideas in neckwear are found at our neckwear
counter. We searched far and wide for everything new and
and we know we have a representation of all the new. See
it tonight.

MORE WORK IN THE N. P. SHOPS

It is Reported That a Night Shift of
Machinists is Soon to be Added
to the Force

BOILERMAKERS WORK NIGHTS

Never in the History of the Shops
Have So Many Men Worked at
This Period of Spring

A night crew of machinists, it is
reported, will soon be added to the
force at the Northern Pacific railway
shops. It is believed that 10 to 15
men will be set at work, probably on
Monday night.

A night shift of boilermakers, num-
bering 10 or more, has been working
several weeks.

Labor conditions in Brainerd are of
the best. There is plenty of work at
the shops and the relations between
employees and the company is of the
most cordial nature. There appears
to be no friction of any kind and
nothing to mar the industrial hori-
zon.

The favorable conditions, increased
hours and many men at work, more
than at any corresponding period in
the history of the shops, has quite an
effect on the pay roll and this twen-
tieth will see the figures increased by
\$12,000 or more.

Boarding houses, hotels, houses
and rooms are being filled and a vis-
itor in this city has quite a task on
his hands if he searches for any vac-
cant residences. There may be some,
but they are few and far between.

MRS. R. H. WARREN DEAD

Former Brainerd Lady Passed Away
Friday While Operated on in
Crosby Hospital

Mrs. Della Warren, age 34, the
wife of R. H. Warren, of Crosby,
passed away at 2:30 Friday after-
noon while being operated on at a
Crosby hospital. She had been sick
several months and previously had
been operated on at a Brainerd hospi-
tal.

Mr. and Mrs. Warren formerly
made their home in Brainerd and at
one time conducted a barber shop on
South Fifth street, where they were
in business many years. Mrs. Warren
assisting her husband in the estab-
lishment as she was an excellent bar-
ber. About a year ago they removed
to Crosby and had a shop there.

Mrs. Warren was the secretary of
the Modern Brotherhood of America
lodge in Crosby. She was a kind and
generous woman and numbered her
friends in Crosby and Brainerd by
the score. In the last few days she
evidently realized that she would
never again regain her health and
she talked over different things with
her husband which he should arrange
to her satisfaction.

She leaves one child, a boy named
Mell, about six years old. Funeral
services will be held at nine o'clock
Monday morning at the Presbyterian
church in the Young building in
Crosby and the body will be sent to
Brainerd for interment in Evergreen
cemetery. At one o'clock Monday
afternoon short funeral services will
be held at the Losey & Dean under-
taking parlors.

The many friends of the deceased
extend their sympathy to the family
in their sad bereavement.

MOTHER JONES TO SPEAK IN BRAINERD

She Has Been on the Picket Lines
in Many Strikes and Gives an
Address at the

OPERA HOUSE TUESDAY, APRIL 9

She and Mrs. Peake to Speak in In-
terests of Strikers on Harriman
and I. C. Lines

A special lecture will be given at
the Brainerd opera house on Tues-
day evening, April 9, by "Mother
Jones" and Mrs. Peake, appearing
under the auspices of the Trades &
Labor Assembly of this city.

"Mother Jones" is one of the lead-
ing lights in organized labor circles.
She is a general organizer of the
Western Federation of Miners. Al-
though advanced in years, she has
been on the picket lines in their
strikes, has been arrested and put in
the "bull pens" or prisons just like
the ordinary strikers have been.

She has been on the picket lines
in Alabama and Pennsylvania for
the United Mine Workers and in those
cities has been clubbed and injunc-
tioned. She also has the record of
never having been driven off the
picket line except in a patrol wagon
or an ambulance.

Mrs. Peake is the international
president of the ladies auxiliary of
the International association of ma-
chinists. An admission fee of 25
cents will be charged and the pro-
ceeds will go to aid the strikers on
the Harriman and Illinois Central
railway lines. Music will be fur-
nished by the Blue Ribbon orchestra.

\$100 REWARD, \$100

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in all its stages, and
that is catarrh. Hall's Catarrh Cure is
the only positive cure now known to the
medical fraternity. Catarrh being a con-
stitutional disease, requires a constitu-
tional treatment. Hall's Catarrh Cure is
taken internally, acting directly upon the
blood and mucous surfaces of the sys-
tem, thereby destroying the foundation
of the disease, and giving the patient
strength by building up the constitution
and assisting nature in doing its work.
The proprietors have so much faith in
its curative powers that they offer One
Hundred Dollars for any case that it
fails to cure. Send for list of testimo-

Some of the Reasons Why the Majestic Range is the Best

A PERFECT BAKER—Absolutely dependable, every day, year in, year out. Built on honor, of the best materials.

OUTWEARS THREE ORDINARY RANGES—The only range made entirely of charcoal and malleable iron. Malleable iron can't break—charcoal iron won't rust like steel.

ECONOMICAL IN FUEL—The seams of the Majestic are riveted (not put together with bolts and stove putty)—they will always remain straight, because neither heat nor cold affects them. The Majestic oven is lined throughout with pure asbestos board, held in place by an open iron grating, you can see it, and it stays there always. Airtight joints and pure asbestos lining assure an even baking heat, saving one-half the fuel. All doors drop for rigid shelves. No spring. Malleable iron oven racks slide out automatically, holding whatever the y contain.

DO YOU KNOW The Ritari Bros. are the Only Manufacturers of

CEMENT BLOCKS

Do You Know, there is a dead air space around your entire building on the outside walls.

Do You Know, you can run pipe from your heating plant into your cement block dead air space wall and heat your entire buildings. That is why Wm. Graham has invested in putting up four double cement houses. Blocks are made wet enough so as to be water proof. Investigate before building of brick or wood.

The Valve in the Head Motor

The valve in the head motor is acknowledged by all engineers throughout the mechanical world as being the most efficient. The advantages of the valve in the head motor are many, it will run more miles per gallon of gasoline, as it utilizes every ounce of gas in the push of the piston as none of the gas is pocketed and only produces heat and no energy, it is a simpler and lighter motor, it takes less lubricating oil, it is quicker to respond to the wishes of the operator, and above all others it has twenty per cent more power than any other type of motor of the same size. Investigate this motor, it is a wonder.

BARROWS

The new mining town on the Cuyuna range, offers splendid opportunities for investment and for the establishment of business in various lines. This town is located in the richest part of the range, adjoining the Barrows mine, which will ship ore this season, and where a large force of men is now employed in putting down the third shaft, two being already completed. A number of other mines adjacent to the townsite will be opened up, making Barrows one of the greatest mining centers on the range. Streets are graded, cement sidewalks in, and buildings are going up rapidly. Lots are now offered at from \$150 to \$400 on the partial payment plan. Buy now while you can buy at the first offered price; get located in a live new town and prosper with the development of the country.

A few years ago lots that were sold in Hibbing, Virginia and Chisholm at the prices we are now asking are worth today several thousand dollars. For further information apply to
